PUBLIC HEALTH AGENCY ORDER # 2021 – 07

**ADOPTION OF THE STATE OF COLORADO COVID-19 ORDERS AND ADDITIONAL
SAFETY REQUIREMENTS TO CURTAIL THE SPREAD OF COVID-19**

EFFECTIVE: *FRIDAY, OCTOBER 1, 2021 at Midnight MST*

RECITALS AND FINDINGS

WHEREAS, local public health orders are adopted pursuant to the legal authority set forth in sections 25-1-506, 25-1-508 and 25-1-509 of the Colorado Revised Statutes. Under these laws, the San Miguel County Board of Health and San Miguel County Public Health Director (Public Health Director) have the duty to investigate and control the causes of epidemic or communicable diseases and conditions affecting public health and to establish, maintain, and enforce isolation and quarantine, and in pursuance thereof, and for this purpose only, to exercise physical control over property and over the persons or the people within the jurisdiction of the agency as the agency may find necessary for the protection of the public health; and

WHEREAS, on Friday, August 27, 2021, based on limited hospital bed capacity in our region, the Combined Hospital Transfer Center (CHTC) Leads met and decided to activate the CHTC at Level 1 which partner all hospitals across the state with a CHTC Lead in an effort to assist and/or ensure COVID-19 patient transfers; and

WHEREAS, as of September 28, 2021 there have been three (3) COVID-19 related deaths in the County since July 1, 2021; and

WHEREAS, wastewater treatment data has continued to indicate a significant level of disease burden within San Miguel County; and 19 hospitalizations; and

WHEREAS, on July 27, 2021 the Centers for Disease Control released data about the increased transmissibility of the Delta variant; and

WHEREAS, San Miguel County continues to sustain a high incidence rate and severity of cases; and

WHEREAS, the CDC and American Association of Pediatrics state that masks are effective in reducing the transmission of COVID and face masks can be safely worn by all children 2 years of age and older, with rare exception; and

WHEREAS, additional or different restrictions may need to be imposed and future orders issued by the Public Health Director to effectively address the ongoing pandemic. Accordingly, **the Public Health Director reserves the right to increase restrictions in future orders and amendments should the**

protection of public health necessitate such measures and no person should presume that future orders will automatically or necessarily relax the restrictions contained in this Order.

NECESSITY OF THIS ORDER

This Order is issued based on evidence of the occurrence and transmission of and vaccination against COVID-19 within San Miguel County. This Order is further based on scientific evidence and best practices regarding the most effective approaches to slow the transmission of communicable diseases generally and COVID-19 specifically, and evidence that the age, condition, and health of a significant portion of the population within San Miguel County places the population at risk for serious health complications, including death, from COVID-19.

INTENT

The intent of this Order is to ensure that the community as a whole has the opportunity to live, work, and play in environments that do not put them at undue risk for infection of COVID-19. Additionally, maintaining low COVID-19 transmission keeps hospital capacity manageable and allows for other medical care to continue, allows businesses to stay open without capacity restrictions, and reduces the likelihood that schools will have to close to in-person learning. Preventing further spread or a resurgence of disease will require that all individuals and businesses be responsible for adhering to the requirements of this Order. Should a surge of illness continue, additional restrictions on activities may be implemented. All provisions of this Order should be interpreted to effectuate this intent.

ORDER
